

# Preparation of Annual Development Budget

## Development Projects for Education Sector

- Adequate funds should be allocated for projects related to education sector
- Projects related to girls' education should be given priority
- Backward and remote areas should be given priority in the process of identifying new projects
- New projects should aim to improve the access of poor and disadvantaged communities to education
- There should be adequate focus on providing missing facilities in existing schools
- Process of identifying and implementing development projects should involve consultations with stakeholders
- For the purpose of transparency, all information related to development projects should be accessible to all
